Description

The Gem of the Sea is born from the observation of light when it stops being a reflection and becomes matter.

The sculpture does not represent water, but rather its memory: that moment in which transparency gains weight and color seems to sustain itself.

The series developed by Álvaro Quintana and Jesús de la Fuente for DA PROJECT is born from a shared creation process, in which sculpture is understood as a field of tension between gesture, space and matter.

Artwork Details

Half	Steel, Metal, crystalline resin
Edition	8+4PA
High work	60cm
Work width	42cm
Work background	42cm
Weather resistance	No
Work weight	36kg
Color	Aquamarine

Shipping dimensions: N/D

About the artist

DELAFUENTE / QUINTANA

Álvaro Quintana Escobar (1991), an artist trained in Fine Arts and with a master's degree in Heritage Conservation, and Jesús de la Fuente (1972), artist and sculpture producer, develop a joint practice that is situated at the intersection between sculpture creation, material research and technical knowledge.
