INAUGURAL COLLECTION · TENSION

Description

The sculpture manifests itself as a space of condensation of time, a circular lens of dark tonality that refers to memory as a dense, stratified and never completely transparent territory.

The series developed by Álvaro Quintana and Jesús de la Fuente for DA PROJECT is born from a shared

creation process, in which sculpture is understood as a field of tension between gesture, space and matter.

Artwork Details

Half	Steel, Metal, Thermal plating, crystalline resin, Stained glass welding
Edition	8+4PA
High work	70cm
Work width	70cm
Work background	12cm
Work weight	25kg
Weather resistance	No
Color	Black, Silver

Shipping dimensions: N/D

About the artist

DELAFUENTE / QUINTANA

Álvaro Quintana Escobar (1991), an artist trained in Fine Arts and with a master's degree in Heritage Conservation, and Jesús de la Fuente (1972), artist and sculpture producer, develop a joint practice that is situated at the intersection between sculpture creation, material research and technical knowledge.
