Description

Suspended Memory is built from a material that has already had another life. The pine wood, recovered from an old architectural structure, preserves within it a temporary charge that is not hidden, but rather reconfigured into a new presence.

The series developed by Álvaro Quintana and Jesús de la Fuente for DA PROJECT is born from a shared creation process, in which sculpture is understood as a field of tension between gesture, space and matter.

Artwork Details

Half	Steel, Wood, Metal
Edition	8+4PA
High work	235cm
Work width	35cm
Work background	36cm
Work weight	59kg
Weather resistance	No
Color	Black

Shipping dimensions: N/D

About the artist

DELAFUENTE / QUINTANA

Álvaro Quintana Escobar (1991), an artist trained in Fine Arts and with a master's degree in Heritage Conservation, and Jesús de la Fuente (1972), artist and sculpture producer, develop a joint practice that is situated at the intersection between sculpture creation, material research and technical knowledge.
